

# What's Growin' On?

Qtr. 2, April-June 2009

Pugh's Earthworks Quarterly Newsletter

**Pugh's** IRRIGATION  
LANDSCAPING  
MAINTENANCE  
**EarthWorks**

## From the Desk of Mark Pugh

*Spring will have sprung beginning March 20th. In April, we will begin mowing and edging for the new year. After a few weeks of growth, we will begin a regular schedule for your landscaping and lawn care needs.*

*It's also time to think about spraying for that nasty crabgrass. Pre-emergent spraying success depends on timing. Crabgrass generally appears in late April and early May so if you want to get a jump on it call and schedule lawn care now. You can rest in the shade knowing that Pugh's will do it right.*

*Check out our new website to find out more about lawn maintenance care and other services we provide. Pugh's Earthworks is your full service landscaping installation and maintenance company. No matter the season, let us take care of the work for you.*

*- Mark Pugh*

### Mission Statement

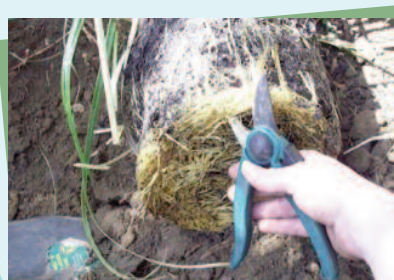

To the end, we commit ourselves to strive, in all we do, for total customer satisfaction.

## Pugh's Tips & Clips

### Spring Planning For Your Garden

- Choose plants suitable for the site (sunny, shady, soil, etc).
- Arrange plants according to their height: tall plants in the back and shorter plants in the front.
- Arrange according to flowering periods for constant blooming.

Container grown plants are easy to plant. Follow the rules for depth of planting as described for the type of plant. Before you gently remove the plant from the container, check the drain holes in the bottom of the container for roots that might be growing out the holes. You can clip them to make sure the plant comes out easily. The easiest way to remove the plant from the container is to place your hand over the top of the container and turn it completely upside down and give it a gentle shake. The plant should slide right into your hand.

If you refer a friend that utilizes our services, you will receive \$100 off your next improvement and/or upgrade of your current landscape maintenance or irrigation service. Please contact our office at 901-546-0099 or by e-mail.
