Pugh's Earthworks Quarterly Newsletter

**Pugh's** IRRIGATION  
LANDSCAPING  
MAINTENANCE  
**EarthWorks**

## From the Desk of Mark Pugh

It's time to relax. Oops, not just yet! Even as the summer heat and droughts are becoming a faint memory, fall is upon us. This is the time of year to prepare for next spring. Pro-emergent S/B Pre-emergent is the magic bullet. We will begin to paint your grass green...no, it's not to confuse you as to what season it is, but rather to show this chemical treatment has been done. Full pre-emergent S/B Fall helps prevent winter weeds and spring weeds from ever germinating. So remember, even though its getting cool, we still have lots to do.

Pugh's Earthworks is your full service landscape, installation and maintenance company. No matter the season, let us take care of the work for you!

*-Mark Pugh*

### Pugh's Mission Statement

To the end, we commit ourselves to strive, in all we do, for total customer satisfaction.

## *Pugh's Tips & Clips*

### *What should I do in the Fall season to care for my landscaping?*

Monitor the water in your landscape. If there has been no rainfall for 3 or 4 days give it a thorough soaking. This will help sustain your landscape through winter months..

Remember lush, thick grass is the best control program. Thick, healthy grass chokes existing weeds and limits sunlight to newly emerging weeds.

If you refer a friend that utilizes our services, you will receive **\$100 off** of your next improvement and/or upgrade of your current landscape maintenance or irrigation service. Please contact our office at 901-546-0099.
